## Constant Current Dimming

### Compact DALI2

SLD35-1000IBD-UN (for build-in use)  
SLD35-1000ILD-UN (for independent use)

#### Product description:

This type of compact constant current power supply with 110-277Vac input voltage has very high efficiency and low power loss.

Designed with high power factor and ripple free, it can be used either built-in or independently. The output current can be set by the DIP switch, and the output current can be switched every 50mA from 250mA to 1000mA.

With newest DALI2.0 technology, this power supply can be dim from 1%-100%

It conforms to SELV standard and the built-in protection circuit will shut down the converter in case of such faults as: open circuit, short circuit, over load, over temperature. The power supply will restart automatically after fault correction.
